

Lincoln Astronomical Society will be 60 years old in October. To celebrate this, we are opening our facility to the public for three evenings. These will be at 23 Westcliffe Street, off Burton Road in Lincoln with a 7-30pm start time.

Thursday 3<sup>rd</sup> October- Public Viewing. See the night sky (if clear) using the observatory telescope. There will also be other activities in our lecture hall. (7-30 to 9pm)

Friday 4<sup>th</sup> October-Martin Lewis is coming from St.Albans His subject is 'Planetary Imaging with a Dobsonian Telescope'. Martin's planetary images show amazing detail and all taken from the UK.

Saturday 5<sup>th</sup> October- Dr Pauline Norris is an Egyptologist with an interest in archaeo-astronomy and is coming from mid Wales to talk on 'Astronomy of the ancient Egyptians'. She is returning from Egypt on the 3rd.

Entry is free but donations are welcome. Children under 16 must be accompanied by a responsible adult.
